

ST. THOMAS AQUINAS STUDENT-ATHLETE ECG/EKG FORM

(to be completed by a licensed physician)

Cardiology Report: Electrocardiogram (ECG) Finding

Parents: An ECG screen (also referred to as an EKG) can help identify young athletes who are at risk for sudden cardiac death, a condition where death results from an abrupt loss of heart function. An ECG screening may assist in diagnosing several different heart conditions that may contribute to sudden cardiac death. STA requires EKG for all Football players every other year.

Please have a reviewing physician fill out and sign this form.
